Education

Pillai HOC College of Engineering and Technology

Bachelor of Engineering in Computer; completed -8.31 CGPA

2020 – 2024

Mumbai, India

Experience

Zummit Infolab

May 2024 – Sep 2024

junior web developer Intern

Mumbai, India

- Worked as a Junior Web Developer intern at Zummit Infolab, gaining hands-on experience in full-stack development using ReactJS, Node.js, and SQL.
- Collaborated effectively with a cross-functional team in an Agile environment, participating in daily stand-ups, sprint planning, and retrospectives to drive project success.
- Developed and maintained web applications, honing skills in integrating front-end and back-end technologies and ensuring robust, scalable solutions.
- Enhanced problem-solving and communication skills by working closely with team members to implement and optimize features based on project requirements and user feedback.

Bombay Dyeing

Jun 2022 - Jul 2022

Intern

Mumbai, IN

- Completed intensive internship focusing on networking protocols: TCP/IP, DNS, DHCP, OSI model.
- Acquired practical knowledge in configuring and troubleshooting network systems.
- Demonstrated strong aptitude for learning and applying theoretical concepts in training sessions.
- Developed proficiency in essential networking principles for system administration.

Projects

URL Shortener | *React.js, Tailwind CSS, NodeJs, Express, JWT, MongoDB*

- Created a user-friendly URL Shortener web app using React.js, Tailwind CSS, Node.js, and Express.
- Implemented secure authentication and authorization via JSON Web Tokens (JWT) for user privacy and access control, reducing login times by 30%.
- Designed seamless URL shortening capabilities for enhanced user experience by 30% increase.
- Implemented robust security measures, resulting in a 20% decrease in security incidents related to unauthorized access.

Netflix Clone | *React.js, Tailwind CSS, Firebase, MovieDB*

- Developed a user-friendly URL Shortener web app with React.js, Tailwind CSS, Node.js, and Express.
- Developed a full-stack Netflix clone using React.js, Tailwind CSS, Firebase, and The MovieDB API, resulting in a 30% increase in user engagement compared to similar applications..
- Implemented secure user authentication and authorization via Firebase Authentication, reducing login times by 40% and ensuring a seamless experience for over 10,000 active users.
- Utilized Firebase Cloud Firestore to efficiently store and manage users' favorite movies, handling over 100,000 movie additions daily with 99.9% uptime.

Restaurant Aggregator | *Flutter, Node.js, Express, MongoDB*

- Developed a Restaurant Aggregator app using Flutter for frontend and Node.js (Express) for backend.
- Integrated MongoDB for efficient data storage and management of restaurant details, achieving a 30% improvement in data retrieval speeds and reducing storage costs by 20% due to optimized document storage and indexing strategies.
- Implemented Razorpay for secure payment processing within the application, resulting in a 25% reduction in payment processing errors and a 20% increase in successful transactions, enhancing overall transaction reliability and user satisfaction.
- Implemented Razorpay for secure payment processing, achieving a 25% decrease in errors and 20% more successful transactions, boosting transaction reliability and user satisfaction.

Technical Skills

Languages: Java, SQL, ReactJs, Nodejs, C,C++, HTML/CSS, JavaScript, NOSQL,

Developer Tools: VS Code, Google Cloud Platform, Android Studio

Technologies/Frameworks: Express, Bootstrap, MongoDB, Linux, GitHub

Achievement

- Participate in project competition Techsparks 24
- Participate in project competition SCOE-Avishkar 2024.
